Numbers have been adjusted based on conversations with KPMG on accounting using the Transfer from Reserves. 130K

Moving forward, to show a 'transfer' as a Budget item to illustrate how to account for a reduced levy amount, and as we dip into reserves will show as a negative net income as shows on the December reports. It throws the numbers out, but KPMG advised is how the accounting transpires.

***to emphasize the ongoing importance of Grant Wiring to continue for Light Pole replacement(s) In phases.

We have a small increase to Levy for 2022, however, larger increases to pre-pandemic levels and more will be required in years ahead (or hard decisions/cuts) to support infrastructure upgrades.

Reviewing Bank Statements - We are in Good Financial standing.

After reviewing the Financial Statements, if any questions, kindly advise. I will have reviewed and return answers.
